# WHO ARE WE?

Brilla FX is a cryptocurrency automated trading and investment platform that allows individuals buy into any of its five(5) trade plans. A platform that began with two foresighted individuals who earmarked trading as the future of cryptocurrency and now leads the way in automated bot trading after a successful transition from manual trading featuring MT4, MT5 and Trading View. We boast of a staff strength of 100+ traders alone, excluding account/portfolio managers, miners, and customer care agents spread across 6 continents of the world and each with a minimum of 5 years experience in the crypto sphere. These expert traders are responsible for the effectiveness of the trading bots in returning consistent results as well as frequently conducting a market survey to determine the choice of crypto that should be traded at different given times. Our main focus is cryptocurrency trading and we are out to dominate the crypto space by ensuring that our platform continues to be a safe and trusted platform for veterans and novices alike, who wish to make consistent profits. This may be due to the fact that they may need time for other things which may affect their results in trading(for veterans) or may want to kick-start their trading journey in style( for beginners).

We also invest in bitcoin and early safe tokens, CFDs, NFTs, forex and real estate. We made sure to diversify our investments not just as a trading platform but as a company because we understand the dynamics of crypto and its unpredictable volatility sometimes. This is the only way to ensure that there are no losses and that the demand of every single investor is met.

**Brilla FX** is a progressive establishment with fore-sighted and very experienced individuals at its helm of affairs who highlighted bitcoin as the future and heavyweight of the crypto market and further went on to provide a safe investment environment to help every individual, regardless of location to invest safely and benefit from crypto.

#### **OUR ADDRESS**

Hamburg Neuer Wall, Neuer Wall 80,  
D-20354 Hamburg, Germany.

## AWFUL EXPERIENCES?

We are totally aware of the possibility of losses in trading as a beginner, likewise the availability of scam and scammers within the crypto space and our heart goes out to anyone that has ever been a victim of these scams. Brilla FX is out to ensure that such experiences cease to exist within the crypto space. We are committed to securing your funds and ensuring that cryptocurrency trading turns out to be one of your life's best decisions and our number one aim is to promote the use of cryptocurrency in the money market.

## TRADING WALLETS

This is an in-platform feature that serves the purpose of a regular crypto wallet. Money in this wallet is available to be used either for trading or withdrawal and can also be left in there if a customer wishes to utilize the wallet for saving. Traders should note that the minimum trading plan costs \$100 and until in the money available in the trading wallet is \$100 or above, it cannot be used to purchase a trade plan and can only be withdrawn. Deposits into a traders trading wallet can be made using either Bitcoin, USDT or Ethereum.

# WITHDRAWALS

There are two(2) types of withdrawals. First is the withdrawal from 'Account Balance' to 'Trading Wallet' so that funds can either be used to re-buy a trade, or be withdrawn to personal wallet outside of Brilla or stored for the purpose of saving.

Second is the withdrawal from 'Trading Wallet' to personal wallet outside of Brilla or bank account.

Please note that only withdrawals from **\$10,000** and above can be sent directly to the bank account of a customer if they so wish. Withdrawals below that amount must be received through a crypto wallet. All withdrawals are processed on a 5% charge of whatever amount that has been requested for withdrawal. The bigger your withdrawal, the more cost efficient it is.

**BRILLA FX**

# SOCIAL MEDIA

In 2021, we shut down our Facebook and Telegram groups because scammers infiltrated them and posed as admins or high ranking officials of Brilla FX to extort/scam people. Because of this, we allow traders communicate with us directly either through email or through our live chat. Investors are also allowed to create small private groups if they wish as it has been proven to reduce the presence of scammers amongst traders of/with Brilla.

# TRUST AND DOUBTS

Through testimonials, **Brilla FX** have been proven to be one of the only very few legitimate platforms existing in the crypto space. We have gone as far as acquiring every important certification required to prove our legitimacy and authenticity. We are registered with the German Government and we operate in one of the safest spaces or environments to run businesses. This safe environment has created a conducive atmosphere for our experts to be highly productive and deliver good results as promised to our investors. Losing funds is impossible with Brilla.

We understand that potential customers may have doubts about the legitimacy of our company and investments. However, we encourage all to do their due diligence on Brilla and see for themselves why we have remained undefeated in the crypto space. Our office is always open to everyone, following an appointment.

### **REFERRAL COMMISSION(S)**

Brilla FX gives a referral commission which is 10% of the initial deposit made by any of your down lines. We encourage investors to share this platform with friends and family.

### **AUTOMATIC CONFIRMATION(S)**

A system has been put in place to automatically confirm deposits and withdrawals to always ensure swift transactions and zero hassles. We understand the value of time, and we are out to preserve its value and not destroy it.

### **SHAREHOLDERS**

These are investors that have bought an investment plan worth \$250,000 and above. They are recognized as shareholders and are given percentages as shareholders and not investors. They become an integral part of the company and have a part to play in the decision making of the affairs of the company and their profits will be negotiated directly with the company via mail or any of its known medium of communication. Shareholders could be invited to the company's headquarters for such discussions too.

# ABOUT US

**Brilla FX** is a company located in the heart of Hamburg, Germany. It was established on the 1st of April 2018 and began as a broker company that was initially/exclusively into crypto currency trading. As expected, the demands of investors grew and we had to diversify in order to meet investors demands and today, the company boasts of a good number of 400k+ active traders worldwide. An establishment that began in a back office in Germany now boasts of its presence in the United States, Canada, Africa, UK, France, Switzerland, Russia, Australia, Cyprus, Asia and Germany where it is headquartered. Today, we boast of other businesses and investments such as real estate and early safe tokens and our aim is simple, to ensure that there are zero losses for anyone who have chosen to explore the crypto world new or old and to also promote the use of crypto currency in the money market.

The C.E.O. of Brilla FX goes by the name Nickolas A. Koch and its COO goes by the name Chasper Schweizer and they are committed to the growth of Brilla as an establishment and crypto currency in general.
